SMART FINANCIAL PLANNING FOR YOUR RETIREMENT— A ROADMAP FOR YOUR FUTURE

Aging is a major concern in many countries and Singapore is no exception. To ensure that you are well provided for in your retirement days, it pays to plan for retirement early, and with a reasonably good knowledge of the techniques and the availability of investment products. The authors like to believe that Smart Financial Planning For Your Retirement is the first of its kind in Singapore and Malaysia, and that it provides all the information you need, in just one book.

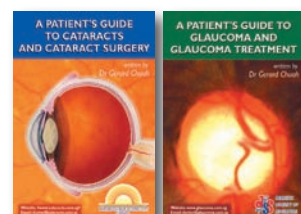

Authors: BC Ghosh; Paul Chan; Lim Yuen Seong

THE BEST IS YET TO COME

The title of this book tells it all. It comes from within the walls. This is the author's deep sentiment, after managing and closely engaging the agency force over the past five years. Going forward, the insurance agency force has in-built qualities to adapt to the ever-changing environment, and hence, it can look forward to a promising professional career built upon a deep passion for providing service to their clients.

The author, Felix Ling, has been in senior management positions since the early 1990s. His work experiences include forays into the armed forces, maritime, hospitality/cruise business and financial services, including life insurance.

PERSONAL WEALTH MANAGEMENT FOR MUSLIMS

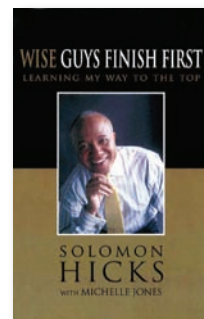

This book focuses on the concept of managing wealth based on Syariah and presents tools in personal wealth management that are available in a country where the financial system is governed by the Conventional system. The current practice on financial planning as advised by today's financial advisors is not in accordance with Syariah.
